Summary - Critical Success Factors

I am a Business Consultant with a wide experience of the (SME) sector, I specialise in providing business solutions / business support services and business training for small to medium enterprises –

I have a specific interest in providing “Train The Trainer – Training / Mentoring and as a result of this interest I have developed a number of possible options that are specific to the SME sector. - This method I consider will allow faster growth possibilities, maximum effectiveness and throughput and greatest benefit to stakeholders. Training would be provided to (selected individuals)(*) – who will then provide the training in designated areas.

I also maintain a website which is dedicated to providing training for individuals and firms who wish to learn “How to Tender for Contracts -

Areas of business services provided include; management consultancy to small firms, business diagnostic, business training, business strategy, e-business solutions, marketing for small firms, tendering for contracts and pre-qualification questionnaire workshops.

I have written several SME business training programmes that are shelf-ready – plus a number of other business development training workshops.

The Critical Success Factors of his service provision are based on supplying Client’s Needs, with Innovative Solutions that Deliver Business Benefits.
